

# Nova Scotia Aquaculture Research and Development Funding Program

January 26, 2018

Nova Scotia Sea Farmers Conference

# NSARDFP

- Program is in place to benefit the whole industry
  - Scale and number of projects is very important
  - Projects developed to address species specific constraints and industry innovation
  - Engage the department with initial project ideas
  - Follow defined criteria
  - Claims bases system
- Project must align with the three funding streams:
    - Aquaculture and Resource Interactions
    - Advanced Planning for Aquaculture Development
    - Industry Growth and Innovations
