Fisheries and Aquaculture Clean Technology Adoption Program (FACTAP)

- FACTAP is a national contributions program investing up to \$20M over four years (2017-2021) which aims to:
- Encourage fisheries and aquaculture industries to use clean technologies and measures, without incurring large financial risks.
- Reduce the potential environment impacts of their activities.

Fisheries and Aquaculture Clean Technology Adoption Program (FACTAP)

- Funding will assist the adoption of market-ready clean technologies, processes, and/or sustainable practices in the day-to-day operations of aquaculture facilities and wild capture harvesting.
- Adoption can include modification to use in a Canadian context

Fisheries and Aquaculture Clean Technology Adoption Program (FACTAP)

- Applicants can receive funding from both AFF and FACTAP provided they are for different components.
- To align with provincial priorities, 10% of funding must come from the province (in-kind or financial).
- Additional information can be found on the DFO website or by emailing:
- DFO.ATL.FACTAP-PATTPA.ATL.MPO@dfo-mpo.gc.ca
